I have given the sketches you sent me for "Queen of Hearts" to our people here and they say they think they should come up nicely. The three that were made in Philadelphia are however very unsatisfactory and I wish you would send me the three drawings so it can be determined whether it is as the fault of the Levy type Co or not, it would appear that it is poor work on their part as your other drawings seem very good.

Be careful to make the drawings of uniform reduction because one can make quite a saving in expense by having several of them reduced at one time. Will send proofs of this lot soon as ready also sample pages of the type.

~~Respectfully~~
