Mayville
New York.

Dear Sir - Enclosed please find
my little mite to help the Millers case.
Would that I could have contributed
a Thousand, yd - I stand ready to give all
the help I can. With perfect confidence in
you and your long efforts in the battle
of justice, against injustice, I feel to
reply that you can always rely upon
my mite, whenever necessity demands.

A question, Would it not be advis-
able for the "American Negroes" to in a
body, swear allegiance to the British
Crown? and, becoming their subjects we
would be sure to get national protection.
As American Citizens we have

national and personal rights; yet we
are unable to enjoy any of them, because
we are weak. Hence we could
demand redress with the strength, with
which justice arms the weak.

Please give your opinion on
this subject.

Very respectfully,
Thos. R. Keefe.
