Judge J. H. Courge
Marville N. Y.
My dear Sir

Wrote of 6th inst
re: it.

If your wife & daughter each
kept on the 13th inst instead
of the 14th - I will, so far as
my present engagements ap-
pear, have to provide for their
entertainment for that night
at a neighbor's which I can
undoubtedly do if I am ad-
vised 12 or 24 hrs in advance
of their coming.

Several of our rooms are to be vacated on the 15th & some of the occupants may want to vacate a day or two earlier than now expected in which case I could give your party another room in our house, & thus prevent going outside.

The Nickel Plate passes S.W. of us crossing the Ill. Central RR. at Grand Crossing & then goes to Englewood. The latter is about 2 miles due west of my residence & the station for Crossing is about 3 or 4 miles S.W. of us.

They can leave the Nickel Plate at Gr. Crossing & then take an ^{Ill. Central} suburban train which goes to ^{the} So. Park Station [same as 57th street station] then walk

west & south to my house.

If they get off at Englewood they can take an electric street car which runs east on 61st street (not the one on 63rd st) & ride to Madison av & walk south to my house 3 blocks.

Give baggage checks for delivery to Parnelle's man on train.

He will charge 75^c for 1st piece & 50^c for each additional piece of baggage. Values as much as trunks. Parnelle is perfectly reliable & the best.

If your ^{party} arrives in the city after 6 P.M. their baggage will not be delivered till next day.

There never has been such an active demand for rooms as during the last 3 days.

I have had to turn away scores
of people lately because I
could not find them accom-
modation. This demand
was intensified because of the
influx of veterans & their families
from Indianapolis.

There has been a great desire
to secure lodgings near the grounds.
Our house is in an eddy off
the main thoroughfares. It
is very quiet.

Hoping to hear from you
again definitely before you
permanently start I remain
Yours very truly
Geo. Cadman
