Dear Sir:-

In the last three issues of the Weekly Inter-Ocean I greatly miss your very interesting and brilliant editorials.

Without them the paper is a very poor specimen of journalism and if you have permanently severed your connection with the above paper, will at once discontinue my subscription to it.

Kindly advise me on the enclosed card how I can further obtain access to your writings. If through no periodicals then where I can get your published works on the various phases of political

economy.

Hoping to receive an
early reply I am
Very Respectfully yours
for the cause of Freedom and Justice
