My dear Judge Lougic

Your letter and enclosure about Miss Farley came to hand and I had the pleasure of a call from her the following day.

I am ashamed to acknowledge that we can do little for such a noble self-sacrificing girl, but I told her I would look and see for her and asked her to inform me of her condition and to help her if things continued to go hard. I hope the

docs will be assumed and sincerely believe the State Secem would be taking a backward step in the unscrupulous

Just now we are overwhelmed with the interests of the Opposition and Miss

Congress of Religions. And let me tell  
you some of the finest addresses and  
not certainly the most hearty reception  
were made by and given to a colored man  
Bishop Arnold of the A. M. & C. M. A.

As far as the Association is concerned  
I believe it requires an open of  
soul. not certainly we ought to encourage  
all to co-exists with: but I think more  
are subjects of grace than we inside this  
visible Church.

Yours very truly

David Beaton
