Judge Albion W. Tougee
Mayville N.C.

Dear Sir,

I have been a constant reader of The Inter Ocean for many years and among its many instructive articles none have been more interesting to me than "A Seaman's Notes." For some time I've watched in vain for the appearance of the Seaman's but to no avail. Is it possible that you've quit writing? Can it be that you have deserted us when we need you most? I pray not. I'm a colored man and always looked to your column in the Inter Ocean for advice. If you have decided to discontinue the Seaman's Notes in the Inter Ocean, and write for some other journal please inform me, and I will subscribe for that journal. I'm determined to follow up your pen.

I know that you take the proper position regarding my race, and governmental questions generally, and time will verify that what you say and write is right. You have my hearty appreciation and prayers. It seems that the sun of justice to us has gone down to rise no more, and we are groping in the darkness striving to educate ourselves for usefulness and citizenship, with nothing hopeful in the future for us. But ^{we} are not going to stop, we are going to keep our armor on prepared for the un fought battle that lie beyond. I hope an indifferent North have realized their sad mistake by this time and prepared to recognize the colored man's loyalty to the Republican party. The trend of the present administration is toward States Rights, National Authority seems to be relegated to the rear, mobocracy reigns unopposed. But there is a God. Justice will yet be meted out to all.

alike irrespective of color or nationality.

My occupation is teaching. I'm doing all I can to train the young mind for usefulness. I wish you could, or ~~but~~ would attend the Cincinnati Convention called by Rev. Bishop Turner. Trusting that God may give you strength and continued ability to lift your voice against the many wrongs perpetrated against my race and the rights of the citizen.

I remain

Yours Respectfully

G. H. Hill
