Prof. Albert W. Sawyer.

My dear Sir,

I have just come from a short meeting of the Porters and they seemed to feel that it would be inadvisable to attempt to put the lecture into too close proximity to the lectures of the regular course and we thought that Dec. 1<sup>st</sup> or 12<sup>th</sup> or if we could not have those dates then some Monday, Tuesday or Thursday evening from the early part of July to the middle<sup>Dec.</sup> of Dec.

I am anxious to have for you an excellent audience and do not want too much going on at the same time, Friday night I find are taken by the Ministry Extension course.

Yours very truly  
Francis A. Howley
