Judge A. W. Touge,

Dear Sir:—

I am a colored man
I was about to start a monthly publication for the honest and manly discussion demanded by the times. As I had ceased your contributions to the Inter Ocean I had thought of seeing if it were possible to secure your cooperation in the enterprise. Since seeing that you are to publish the "National Citizen" I thought it might still be possible for me to do something in this way I had marked out and also be of some assistance to you. I may be mistaken, but it seems to me, that the thoroughly interested cooperation of some colored man of intelligence and influence could not fail to be of great service to you in your undertaking. I am a native of Farmington Conn. I studied in the Common School, the State Normal School, and Yale University of the

State. I taught several years for the A. M. A., and have preached in the Congregational Churches at New Haven and Springfield Mass, and in the A. M. E. Churches at Chicago (Union Chapel ^{since you}) and elsewhere. I have been connected with an educational enterprise in Kansas, during the past seven years. I am now at liberty.

I enclose ~~some~~ ^{these} papers of recommendation, because they are the ones I happen to have at hand, but if need be, can give you testimonials as to my character and abilities from the most prominent white and colored men of the land.

What I desire is this:—

1. I would like to be the authorized agent for the "Citizen", with full power to act at my discretion (within your general instruction) ~~wherever~~ wherever I can make my work tell, and on the most liberal terms you could possibly give per subscription.

2. I would like to have a column, at least, each week, in which I might say ~~to colored men~~ ~~the~~ the things that may be said, ~~from~~ by a colored man, from a colored man's standpoint.

3. I would like to begin at once.

Please let me hear from you on receipt of this.

I am well known, and those who know me give me credit for prudence and integrity, wide acquaintances with the people and for power to move the masses. I have access to the churches. I will visit the towns and cities of the country. I am prepared to throw my whole soul into the work and am confident of success.
