Mrs A.W. Younger,

My Madam,

A circular relating to the Book "Buttons and" is rec'd, Enclosed please find T.O. Note for 2⁰⁰ for 1-Vol^{sup} to my addy.

I was raised 10 miles from Jamestown and went up to Mayville, on the Steamer Chautauque, in Apr 1837, It was a lovely day and I enjoyed it-very much, being my first-sight of a steamer, or Lake, I still retain a vivid recollection, of those early scenes, and Pioneer Characters, and I wish to read it, very much, There were very few settlements along the banks, of your beautiful Lake, at that time,
