Mayville, N.C.

Dear Friend:

After your arrival to Groves I wondered what next Cypher would do as to the new paper, Congress, or a seat in Reed's cabinet?

This week's paper answers my questions in part - in the neighborhood of "Protestants" - a sort of man's friends.

The last evening I stated that the press report of the "Citizen" would be out soon and I have watched for it since with the hope of seeing a subscriber from the start. Please let us know

where you are at. Take care Reed on the side I'll be in a position to say you - it is a coming. Sincerely yours J. C. Robinson
