

Bloomer Wisconsin

May 29. 1894

Judge Furger

Dear Sir

One of the poets has said "a fellow feeling makes no wondrous kind" therefore I venture to trouble you with the enclosed. It is the manuscripts in part of a book I have prepared and would like to see issued with the hope to bring the Republican party up to make a campaign above the \$ mark and let it also include human rights and partic- ularly for every American citizen a free ballot and fair count. If I can get \$125⁰⁰ more than I have I believe I can have it stereotyped and brought out. Could you interest some that you know to be zealous in this matter who might assist to this extent. If you can I believe it would help the cause in which you are laboring and also

be personally appreciated

A Mr Rusk who is printing a paper at Chippewa Falls this county (he is a son of secretary Rusk of Harrison's cabinet) said he would issue it in serial form through his paper. I see from the Crusader that when hope was abandoned you finally secured a publisher for your paper. The National Citizen. How would it suit you to issue this a couple of columns or so in each number.

Furthermore I see from the Inter-ocean (Miss Wells article) that a photograph of a lynching scene was sent you could I get a duplicate of it. If so and I bring out this book I would like to have a cut made to follow the paragraph 40 Lynching in Arkansas. With a little study of the contents I doubt not but you can get a fair idea of my book. Submitting the matter to your discretion I remain yours respectfully
Thos. M. C. Birmingham
