Lake Wood N.Y. June 5/94

Hon. A. M. Towrose:

My dear Sir:

I read in to night's
Journal with great and satisfaction
your withdrawal. With satisfaction be-
cause it is a strong and timely utter-
ance - another measure testimony to the
neglected truth, and places you in a
dignified attitude; with regret that the
truth is not to be so at once in
this district in the form that we
had hoped. In the present Egyptian
strife prone to his idols - but as you
say it cannot be for always, or for
very long. That there may be opportunity
at no distant day for you to read

in this great cause is my sincere hope.

I was about to write requesting you to have made to certain friends of mine in the District Copies of your address and Supplement, with a view to the Campaign.

As not wholly inappropriate to the matter in hand I enclose to you by this mail one of the original Copies of an old leaf submitting public Occasional - viz: the speech of my father in law Hon Thomas Corwin of Ohio delivered in the Senate nearly fifty years ago opposing the Mexican war. Had the Whig party heard him, history might have been different.

Considering the old Corn homestead in Southern Ohio recently I thought to send you Copies in the form in which at that time Congressional documents were issued and mailed: they are interesting

Two or three of their day; but they
were from books for their time, and
love that we enter page in the history
of the contest which still engages us.

As occasion may call me to New-
York in a few days - this at the
risk of losing your time I promise my-
self the pleasure of a long call.

My respects to Mrs. Furgie in which
Mrs. Furgie's letter, and with sincere re-
gard for yourself I am

Cordially Yours

E. J. Furgie
