SECOND STORY.

Kalamazoo, Mich. June 9 1894

Hon Albion W. Tourgee.

Mayville, N.Y.

Dear Sir.

I have lately read a few of your letters to the Chicago Inter Ocean and am pleased to see you take the stand in favor of equal rights to all American citizens. That principle gave birth to the Republican party & if followed out will bring much good to the citizen & to the party.

I am much in favor of stopping the foreign immigration. & believe it will be the only way to remedy the evils with which the American laborer now has to contend & I believe the Republican party will take a step in that direction & it seems to me a necessary move. on the part of good & safe government. We cannot expect a show of good standing & with good principles coming here. I think they should pass some examination before coming.

Let me hear from you
Yours Truly
H. J. Hammond
