Coal, Iron, ore, and Pig Iron.

Cleveland, O. June 23<sup>rd</sup> 1894

My dear Judge - I have yours of the 22<sup>nd</sup> and am very much obliged for the information - I think I am confirmed in my impression of our left facing near North East by the report of the Cal. of one of the Regts opposed to us who speaks of his men "facing the bright Sun" - he must have been facing South West at any time from 2.30 to 3.30 P.M.

I hope I may be able soon to avail myself of your invitation to come and look over the reports you have received and which no doubt would interest me at the same time since you have mentioned the fact that my picture seems to have secured an unwarranted admiration in your family I feel that I ought not to destroy the illusion. (It is wonderful what artists can do nowadays) However I will try to subdue my native modesty enough some time during the summer to call on you - It will be of a Sunday of course but will first find that you are at home.

Yours Resp

A. M. Robbins
