

Forest City N.J. July 23 94

Judge Towner

My Dear Sir allow me
to offer you some tributes
of praise for the humane
and able interest you
take in the cause of huma-
nity. Well as I liked to
read the Cruise letters.
I was glad when you again
took your place as bystander
in the outer circle and
are so forcibly pointing
out the short comings
of the Republican Party
as they seem to know how
to handle the British
Lioness but allow her
Southern whelps to
devour all the game
hugged by the North

during the four years
spent in the Southern
Jungle and much as
Southern Journalists boast
of our great achievement
of facing the negroes
I doubt the much difference
only the Auction block
and whipping posts have
been abolished and
Cruelty and torture
have been substituted they
mean to take off our protec-
tion at the north and
allow the cold slave
Auntchats to live in
Cruelty and we have
not by the word than they
and I fear that there will
be no more made to
change the condition of
affairs as there seems to
be no mention of it in

any of the State conventions
and as you say we now
occupy the same ground
that the Whig party did
without any real cause for
so doing and we had when
Henry Clay was leaving
Our State will hold
their convention last
of ~~the~~ August and I
would like you to
send me suitable resolu-
tions on the Southern
question and I will try
to have them adopted
in the platform. I hope
I would like to see
the day when we could
have you at the head of
our government with such
help as I think we could
a good majority in both houses
of some ^{members} I think we would not
have him a single south of conspi-
cuous Jews J. P. Peters
