Dear Madam. I am in receipt of your letter enquiring about peaches. I can furnish you most any variety and quantity you may desire. There are none yet that it would pay to ship and probably will not be for two weeks. Still there are some early ones sold here in our local market for 40¢ per basket. but these early kinds are of not much account and will not pay very well to ship unless you

have a very good market
for them. Please let me
know about how many
baskets you would need
per week and whether you
would want any before
the Crawford's are ripe
Respectfully yours
