Dear Sir

After reading several letters in the Inter ocean I would like very much to have an article for Pukwana from your pen. I mail you under separate cover copy of magazine to let you see style, how we late issues & upon. Owing to failure of crops & all lines except sugar beets and Congress has crippled that industry so that the factory here will not run this year, and the work that would have been done there with be done in Norfolk, making it more hard for hard and money almost impossible to get currency I could not promise to pay very much. Please let hear from you at your early date and oblige Yours truly
