Dear Sir:

Your esteemed favor of Sept. 20 th. received, and noted. We do not see what can be the matter with the copy of wash drawings, as they were sent to you at the same time the cuts were, and the should have reached you about the same time.

We did not know we charged you more for this last order than we did for the former ones, and if we did it was entirely unintensional on our part. If you wi l let us know what the diffe difference is we will gladly make it right to you.

Trusting this will be satisfactory to you, we are.

Yours very truly.
