To Hon Albion W. Tourgee
Mayonville

Dear Sir:-

I am contemplating submitting a "Resolution" at the coming "Colored Catholic Congress" that meets in the City of Baltimore, Md., October 8th, 1894, asking the appointment of a Committee to wait upon "His Excellency, The President" of these United States, and urge him to call the attention of Congress and The American People to the prevelency of outrages against the Negro, and asking Congress to take such steps as are within its power as will better secure citizens in the enjoyment of their rights and immunities, which, under the Constitution and Law, they are entitled to. Will you kindly write me your views upon the advisibility of such action and generally as to the scope and nature of the request to be made, i.e. what things should be definitely and certainlylaid before him and what particular action we should ask him to take.
