Dear Sirs:— Your favors Enclosing proofs of Road, also copy and cuts for Souvenir are received and will receive attention at once. The Souvenirs we will hurry as fast as possible. One thing we wished like your advice about — that is the shape, we send dummy of each made as small as will allow of setting in all matter, and in one shape, "The Musicians" on first page, or in the other shape the three Cos. on one page.

If you think the three Cos. would look well close together, we think that would be the better shape.

Yours very truly
