Mayville, N. Y.

Dear Sir:-

At this writing we can hardly see it possible to give you a proof before printing the "Souvenir", and at the same time have them printed for you Monday, for it will be three days from the time we send the proof, before we can get it back, and there will still be the second page to set up.

It is barely possible that we can get the proof off to you to-morrow night. In that case we can get it back in time; but, if not, the only way we can see out of it is, to take infinite care to have the thing typographically perfect and let you leave it to us; or, should we have time to wait, you might wire us on receipt of the proof if it is all right, or the contrary.

However we fix it, we shall have them printed for Monday. Can you not send by return mail the copy for the page that is lacking? Also informing us the number of copies you desire.

Faithfully yours,

S. McGERALD & SONS
