Dansville, Liv. Co. New York.
Oct. 11th 1894.

Hon. W. H. Seward
Mayville N.Y.

Dear sir,

In our local paper recently I noticed a paragraph stating that you had this year raised potatoes from seed planted the preceding fall and that the yield therefrom was at the rate of 360 bu. per acre.

As I am interested in the matter I wish to learn more about it.

May I trouble you to answer a few questions on the following sheet.
