Mrs H W Fuller,

My dear friend,

We had a most delightful ride on the "Nickel Plate" thanks to your good husband whose ingenuity managed to bring good out of evil, after our disappointment in leaving our trunks at Lancaster

We decided to keep the tickets and remain in Chicago till to-morrow morning, telegraphed home and thought that would keep them pacified

To day it has rained very hard and the "Queen of Hearts" has been a source of delight and comfort

How do we like it? it is one of the sweetest things in literature it is perfectly lovely and you should and doubtless are the happiest woman in the world - you are worthy of all that your King has said and he has said all a man can say.

to you and he have attained that perfection of earthly happiness that God designed for the human family in the garden of Eden. I want to send several photos to some friends that I know will appreciate their value

Viz enjoy the pictures and hope soon to have the "Queen of Hearts" added to the list- also the home & Lillie and Miss Emilia's sweet face haunts us with a longing to see in photo if she will be so gracious.

Sister will write you of her opinions of the Book when- she has revelled in it and has now retired asking me to write-

go on in the beautiful art she has chosen and make the mark that is in every work of her facile touch. and pop her memory on the Tomato raising if she can spare us a copy. we shall be most happy

And now thanking you for your hospitality and the pleasure we enjoyed in your family I am ever

Sincerely Yours
