20, West Fortyfifth Street.

Dear Mrs. Fawcett,

I did not reply by your letter of 6th at once because I wished to see how Miss Annie progressed. She was really so cared for about last Saturday. She had a sudden attack of pain after an examination — not a treatment — and I could not explain what caused it.

CHAUTAUQUA COUNTY HISTORICAL SOCIETY 2013

So I thought it safer to keep her in bed that day. Since then she has begun to menstruate, although ahead of time. Still, this is not unusual after such operations and treatment. She has done perfectly well since, and is staying here only because she is unwell and the weather has been rainy + cold. I presume she will be able to leave in a few days. I am not free myself to go to Chautauqua as I shall work part of the night; as I shall work make up the charges of $40 - a week for the time all this Annex for the HW weeks, but only days over the HW weeks, but only the charges would for hard work

nursing, without professional attend-
ance, which you can remit when
she returns home. Don't worry
about her, Porter.

Sincerely yours

Paul V. Shunda.
