Manger of Chicago Inter Ocean.

Dear Sir,

I would like to ask some information concerning the South:

There are some of our white Brothers not aware of the fact, that in certain localities of the South, where the negroes are in majority that the Goovernor appoints the Mayor of certains places.

I have seen in the By Stander published by Mr. Albion W. Tourgee about how they did in the South.

And I would Please like for you in your next issue to publish how they do and whether it is the law of the State to enforce such law.

The Judge is well aware of the fact, and so am I, we both had experience, and our friends that denied the assertion has not.

Reply. Your Rept.
