Dear Sir & Comrade

I have sent you one of my pictures to be inserted in the forthcoming history of the 105. & enclose check for 5.00 as requested. I read with great interest your last article in the Cosmopolitan, which covers the battle of Perryville. The map of the battlefield is not clear, & suggest that in the book you indicate the position of Parsons battery by those characters used to indicate batteries on military maps. If you will do this it will make the first location of the 105th very clear.

Yours Truly
D. C. Paine
