Hon Albin W Lougee

Mayville N.Y.

Dear Comrade -

Your letter in reference to Genl Manson at the Battle of Richmond Ky - received - I do not think there will be any controversy over it - and will as you direct only use it - in case there should be cause -

There is no doubt - of the correctness of your statements - Many of my Comrades were in the Battle - in the 16th Ind. Regt. - and always said so - their only justification was "he did not want to be accused of Cowardice" -

The Story of a Thousand is

being read by many here with intense interest - much of its experience in Ky - recalls to our memories like trials of endurance - So hard on "raw" troops -

I want the Book as soon as it is published - was pleased with Bullets Inn and your daughters drawings -

Hopeing to have the pleasure of meeting you Sometime

I remain,

Yours truly

J. H. Mauzy
