Hon. A. W. Tourgée
Dear Sir.

I write this to inform you that the Chattanooga map is really progressing if rather slowly. but the time I have been able to devote to it lately has been somewhat limited owing to examinations &c.

I did not realize the size of the task when I undertook it but the work has gradually assumed form until it now quite resembles a map.

One of the great advantages

CHAUTAUQUA COUNTY NY HISTORICAL SOCIETY 2013

the government map has over mine is the use of blue ink for rivers and for this reason I enclose a sketch ① of a part of the Tennessee River, also another way of drawing it ② which, I think, will render it much clearer to the ordinary observer. The trouble with the outline sketch is that it is difficult to distinguish between the banks of the river and the roads near it.
Kindly let me know what is your opinion on the subject.

Ps noticed on your map that you had made three crosses in pencil near Tunnel Hill. Do they signify anything and do you wish them in the copy?

I imagine that no title will be necessary as the radius circles about Chattanooga indicate what it is.

Hoping you are well
I remain

Sincerely Yours
Leon J. Robbins
