Friend Younger

I have
your postal asking for
the date of my brothers
Horatio's death. I do not
see how I could have
omitted these details, the
date is Nov 10th 1890
and place Austin Texas

Another Error of mine
to which my attention
has been called is in
the spelling of Mr Kagy's
name Kagi instead
of Kagy. He used to
write it for me in a
very elegant hand Jos H Kagy
and annex himself in

in trying to teach me
to pronounce the name
as he did with a peculiar
aspiration of the K, as
if the name were spelled
Heagy a german way
of pronouncing the name
I suppose but which I
could never quite accomplish

I have been reading
"the Story" in the Cosmop-
-olitan with much interest,
as have many of our
neighbors, and Congratu-
-late you and the
regiment on your
success in making "Brick
without Straw" - except
of your own laborious
efforting. I am sorry
that your labors
have not been lightened
by a more general response

on the part of the members
of the regiment but am not
sure that the results
would have been more
satisfactory by an increase
in the number of "Cracks"

Several members of
my family have been
"dinging" at me ever since
I brought home the
"Itinerary" to have me
ask you if I could
not have my picture
changed before the book
is printed, they think
the cut does not do
justice to my beauty
Call me "Dr Fabrunkey"
because of a fancied
resemblance of the cut
- and especially the cut
across the face - to the
ample gash which some

as a door of utterance
for the Rebekah divine.
I do not myself care
much about it, but to
please my friends I will
if it does not involve
too much trouble to you -
send another Photo. for
the Bheering Co to grapple
with. expecting of course to
pay the additional expense
If for any reason it
is not desirable do not
hesitate to so inform me
Yours truly
N. O. Smith
