487 Delaware Av
Feb. 27, 1895

My Dear Judge Tourgée:

Mr. Shepard conveyed to me your proposal that I should take an equal share ($500) with the other gentlemen in "The Oasis" and make a contribution of time and work as an equivalent for the money. The same suggestion had been made by several of the men; so I considered the matter sufficiently agreed upon and consented to appear on the subscription paper on equal terms with the other men. I would be very glad to conduct a department of interest to Good Gov't Clubs and I had some talk with Dr Rainsford (who spoke to the Liberal Club last night) touching the matter of Good Gov't Club news from New York. My feeling is that the matter could be

CHAUTAUQUA COUNTY NY HISTORICAL SOCIETY 2013

made more useful by Gelbert
and an editor to meet Mr Duffalo
Trade and putting into their Dun
local matters including
the election of the Civil Service
Chicago I am a member, on the
Executive Board. This plan
is pursued by the Boston Herald
in its Quincy issue - matter
for Providence and for Worcester
respectively appear only in the
papers circulating in those Cities;
the paper is otherwise identical
~~the~~ the whole issue -

Have you further Con-
sidered getting the publish-
ers interested to send us their
books? I have always felt some-
thing authoritative in the way of
Literary Criticism - Short, sharp
and just ought to be done here -

There are now nine
names on the list for $100 each
including myown. My old friend

CHAUTAUQUA COUNTY HISTORICAL SOCIETY 2013

Mr. E. H. Howard put his name down this morning for my Cabe he said; I think he must me to get my nose further afield. Mr C. F. Dunbar has taken the matter into Consideration - Mr Stubbs is in negotiation for a house which if he does not purchase will lean him free to subscribe Soon; if he does (purchases) he will not have so many Books at Command - but said in that Event he would take 20 Copies for Mr Lyell - If MacGregor & Sons have a right appreciation of Genl he ought to get out early with a "Drum" as I think he fully is ripe for that kind Power. MacGregor would to go on when 6000 is reached - do you think that safe? I have written you this note as I am likely to be away part of next week when a meeting is talked of. Mrs Allen has been very ill with "grippe" and is not taking change fair as soon as the

SHAUNIGAN COUNTY NTH HISTORICAL SOCIETY 2019

can travel, I will probably
go to Warsaw for a
few days. I can hardly learn
when it is absolutely necessa-
ry as plans are nearly ready
for the forming of three more Prod
Golf Clubs in the difficult
wards on the East side. As
I am chairman of the Com
of Organization for the Federated
Clubs, I have great desire
to be present when these meetings
are called. I am also in the
throes of School Reform and this demo-
gogue is much in evidence and
needs my Club-work in various
ways. I congratulate you and
the Kingdom of Heaven on the high
outlook for your ideal - your
Eidolon.

Yours Cordially
Thomas K. Slicer
