Judge A. W. Tourgée.

My Dear Judge.

The ladies in charge of Lakeside Hospital have undertaken to get up a Magazine of one No. as a benefit for their funds. They are to do this in place of a Women's paper which has been the rage lately. The idea was started by Mrs. Mrs. D. P. Kline the originator & for some years the successful manager of the 'Boston Ideals.' She has among her personal friends some of the Eastern Authors, who have responded by return mail to her requests, so she feels encouraged to proceed. To me has been delegated the privilege of asking you for a contribution to this venture. Some one knew that I knew you, & this is what comes from knowing celebrated Authors.

Mrs. Kline says four pages are ample though there is no restriction whatever, of course. - it is desired that contributions be at hand the 1st April.

Really- this is costing a great deal- but we have to be bold these days.

Perhaps you have something on hand. At least you will receive my letter sooner.

Very Sincerely
Yours
Elizabeth C. Seofield.
