Dear Judge.

I presume the fish have come. They were shipped Thurs and I had no opportunity to inform you as I said I would. They were a much later than I at first thought. but our good landlady (Mrs Admiral Semmes widow of the only officer of the name that remained loyal to the flag) engineered the matter & her man, I am sure did the best he could to please you. Bessie saw the "warmints" & said they looked very nice - They were selected, all roe herring, & fat & I am in hopes they will come
