Wm W. Tongue,

Dr Sir,

It is highly gratifying to loyal
to our Government to realize that
the "recognition" which has been
claimed by press of rebel proclivities
is not to materialize at Chicago
on May 30th. Patriots throughout
the South have, for some months
been filled with gratification, over
the expectation or assurances
that the loyalty of the County,
the G.A.R. Association, would
participate in and at the
unveiling of "the Monument
to the Confederate dead" on May
30th i.e. that the loyalty, the
veterans would stultify them-

by doing honor to rebel dead
"O, tempora ob mores" that we
should be so degraded.

For thirty five years, we have
been doing penance, have been
apologizing to the rebels for
having maintained the
supremacy of the govern-
ment of the United States against
the rebellion, and they still
stand in attitude of demanding
much apologies, and the greater
part of our public men seem
willing, nay anxious to do apologize.

"Quae cum ita sint" I almost feel
ashamed to confess I am an
American, a Citizen of United States.

The rebel of 1860-5 is still a
rebel in 1895, do just as did.

sentiment goes,

I realize that a change is coming in the views on the Silver Craze, "Free and Unlimited Coinage of Silver" has received its death blow.

Recent letters of "H. B. Claflin & Co." of Jno. H. Inman" et al, speech of Carlisle at Covington and "Silver Convention" now in session at Memphis, with Lex. Lisle and others addressing the Convention against this Craze, have combined to open the eyes.

Promise for constructive voting for Republican Party in 1896 is good. Keep the ball rolling.
