June 14

A. W. Forgee
Mayville N.Y.

Dr Sir;

Replying to your favor of the 13th my experience is entirely in the line of strictly class or "trade" publications I doubt if I could successfully manage the business of "The Basis" my time is largely occupied with our present publications Permit me to say however that I have read many of your books with pleasure & profit and the striking originality with which you can endow the "Basis" should be a guaranty of its success

I thank you for the opportunity but believe we would simply waste time by further consulting my connection with the Basis.

Very Truly Yours.

W. W. Wettstead
