Springfield Ills. July 4th '95

Mess. S. McGerald & Son

Sirs; Please accept my thanks for sample copy of "The Basis" I hold in reverence your distinguished editor Albion W Tourgee, and love him as dearly as one man can love another, for the inestimable service done my race. From present indications, it would seem that we will have to patiently await the arrival of the millennium before realizing a consummation of all the good things, The Basis, is contending for; but no matter how gloomy the outlook, how formidable the undertaking, good citizens should not be deterred a whit from pounding away. Can't subscribe for "The Basis" just now, having all the papers & magazines I can carry.
