Hon. A. W. Longer,

My Dear Judge:—

It has just come to my mind that you asked me to send you some views. I do not know how I came to neglect that request, but something must have diverted my attention. It certainly would be a very great pleasure to comply with it. How if it will be of any use I will attend to the matter as soon as I return home which will be in a little over a week.

I hope the aparatus you got proved useful.

Truly Your Friend
