Dear Friend of the Race.

Press of business and hope of getting you a goodly number of subscribers has caused me to delay until this have lost many weeks good and valuable matter, but I shall fully make up for it.

I will get you a good number 25 at least, for I am sure no race loving man or woman can afford to not have your valuable paper. Our race papers may say what they please the reps know fully well that your hands must be upheld. Unless all our so called race papers fail then you you reach that part of the American people that needs to be reached the most they do not, they have not the opportunity. You will make an opening for them, but I know that nothing they say will deter you and may God Blessing be ever upon you.

Fredrick L. McGhee
