Ringsville July 14

Mr Fowler Sir

We Have had a good deal of trouble here with E B Wakefields horses running at large & in neighbors grain for the last 2 years I took them up the other day & for spite he has ordered his man on the farm to tear down the line fence between his farm & pasture on your place, so I can not use pasture without my stock getting out, he has tore down 20 rods of fence already

CHAUTAUQUA COUNTY HISTORICAL SOCIETY 2013

Wakefield clames threashole of the fence. he has also been useing pasture joining up to the present time Has not gave any notice of tearing down or taking a way

If I can not have use of pasture I will have to give up plase as soon as I harvest my oats as I shall have to hire other pasture for stock

Yours Respectfuly

E A Brown

since writing this letter his hired man got a little frightened over the transaction and has rebuilt the fence but has built it in a very poor way it is not as good as before & the least thing would lay some of it flat to the ground I dare not turn stock in till fence is in different shape Perhaps the fence will have to be rebuilt now & divided You will know best what to do

Please answer soon
