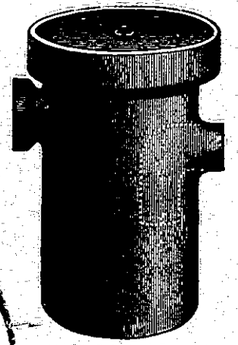
INVERT, 6x8.

Used in brick sewers for bottom drainage, and forms a base upon which to start an oval or elliptical shaped sewer.

1-2 CIRCLE INVERT.

The half-circle invert is used in the bottom of stone sewers, giving a better flow and making the sewer more effective.



GREASE TRAP.

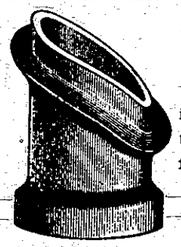
For drains from kitchen and factory, to prevent obstruction in the sewer.

Grease and Catch Traps for house drains..... 4x12, $5 00
Grease and Catch Traps for house drains.....5 or 6x15 7 00
Grease and Catch Traps, with covers, for house drains ..6x18.... 8 00
Grease and Catch Traps, with covers, for house drains....6x20 10 00

CELLAR TRAP.

For draining damp cellars. Keeps the bottom of the cellar dry and healthy.

Perforated Traps for damp cellars ....4x9 and 10. $4 50
Perforated Traps for damp cellars 4x12 500



COLLAR SLANT, 6".

House connetions for tile sewer. This slant is used when it is found necessary to tap the main sewer and no 6" connection is found in the street.
