Mr Ed Lee,

I have lately become a subscriber to the Ranger - it appears to champion the cause of man, not party or clique. It fills a long felt want and was one of the circumstances of the Organization that I have thought that some individual should step forward for the expression of their own opinions upon the subject. I have had in mind contributing to your paper as for prize offer - I am now engaged in the preparation of a pamphlet upon the morality of the land - it will soon be ready. I have had access to

write to you. Just what you want
in such that I cannot give you
a copy which I shall be
glad to do. I am aware that
it is a departure in many respects
to your mind upon the subject.
But upon the publication
of your "Appeal to Cæsar"
you may have changed your
mind somewhat in the regard.
My idea is that the Bury case
be widely set by the thinker
of the age. and why become
to permit a culpable back-
woods jury like a shortsighted
upon the above subject for
the Bucks? ~~Rens & Henry of Lowville~~
"Rens & Henry of Lowville have
lately issued a pamphlet upon
Legal Crimes among Indians
Egypt" which you no doubt
have the volume in. Wish
best wishes for success. & am Yours,
D. J. Walton
