ROOM 82, 175 DEARBORN STREET
CHICAGO, ILL.

CHICAGO, ILL. Aug. 9 1895

Dear Sir:

Your letter received. I am very glad to know that you are regaining health and strength.

Well, I have decided to take the Woman's Department on the terms you propose, to Jany. 1st 1896 anyway. When shall I begin? Not before Sept. 1st I hope, for my assistants are two of them away, and I can not well be sure of myself before your first Sept. issue.

I send you a photograph, taken two weeks ago. It is a good likeness, only too dark - the face being in shadow. The artist who reproduces it should know, perhaps, that I am of light complexion, with grey eyes and auburn hair, - and then he can make the picture lighter. I am speaking of the profile picture which the artist will probably choose, but for you I send the larger, full face picture, so you may be getting acquainted with your co-workers.

When the new circular comes out - or when my first number is published, I have plans for increasing the circulation of The Basis in Chicago, through the Women's Clubs &c. Yours hastily, very sincerely, however,

Ada C. Sweet
