Mrs C V. Tongue

My Dear Friend

Soon as I received your Letter I came here thinking I could find a draft that day but was disappointed There was a hitch til Saturday afternoon & then another for a week So I thought I would go to the Bank & get a $100 started & go home The Bank had just closed when I got there & the best I could do was stay over til monday morning There is no doubt about the money in time I can get two thousand but thought I had better not say I would take it til I heard from you to know if you could place it to advantage the interest will be six percent I wish you to pay the Interest while I live & the principal use for the same purpose as mentioned in the will Love to you & yours C.E. Burnett
