Dear Comrad

Our next annual re-union will Soon Convene at Chardon, I am often asked how Soon we will get our Victory, and now I turn to you for information.

I am pleased at the anxiety of the Boys for the Volume I think there will be a liberal number Taken at once

I viewed the Story as published in the Cosmopolitan with great interest & Joyfull until we entered the forests of Chickamauga There I could not reconcile your production with my personal recollection of our Position So far as our own Regt was Concerned, in the Main you do as well as could be Expected from the Conflicting reports of Commanders & Correspondents. I Perceive your attention has been called to the Mistake at time of Gen Cox & Kings death This was not on Saturday and not until after our Regt made our Charge on Sunday the 20th. King was among the Lines during a lull

of the 2nd charge on our firm by the Enemy & we 105ths were not thrown into action untill after the 2nd charged was repulsed (an Hour) after we left the Brigade in our rush over the ground that was Vacated by Brannan & Word we were lost from the Brigade untill we rejoined them at Rossville next day, I drifted back to the Dry Valley road about 5 oclock & in a few Minutes the Body tied on a Cason passed me going towards R. I recognized the remains & ashed the the driver if they were not Kings (his answer yes) So that I think this clears up all the error relative to time & date of his death

Enclosed I Send you a 6 Months Subscription for (Basis,)

Please write me soon

Yours truly with regards to self & Family W H Sorbis
