Dear Sir

We are in receipt of your
favor 21 relative to our making
the half tone from steel cut 2½ x
3½ as ordered, we found that
this reduction was necessary to
get the best results as a steel
engraving will not copy on the same

proportions as a photograph
on account of the technical
working of the lines on the steel
engraving and the lines on the
half tone screen plate. However
should you wish to remove
the portrait to 3 inch we will
do so with out charge to you
however cannot guarantee
as good a result. We received
2 proofs and have
1 now in hand

Yours Truly
A Thurgow C.
