Hon.A.W.Tourgee,

Mayville,N.Y.

Dear Judge:--

Yours of the second inst. is received. In regard to the three corrections which you sent, I would say that I have had these errors carefully erased, and have had carefully inserted the corrections. In place of the three we have put a two; in place of the abbreviation M.O. for mustered out we have put an asterisk, and on page lxiv we have placed the head "Field and Staff". We have made these corrections very carefully so that they would never be noticed except by one who knew that they were there, and I believe will be much more satisfactory than to paste in a slip of errata. As fast as the books are bound I have these corrections made. I will send you slips for the ones you have; or if you will send back I will fix them for you.

I have sent one large box to Lieut. Forbis, and will hurry them right on to him as fast as they come from the binders. As soon as I have have all these orders filled I will have the morrocco bound up. Shall we put the side stamp in gilt on the morrocco?

We will print postal cards in lots of 10,000 for $4.00.

We will publish the next number of the BASIS for you if you desire. I enclose all matter left over from the last number.

Yours very truly.

A D McBrueck
