Dixon Ill

June 13th 96

Mr Gourgee.

Sir

I recd yours
one time ago I did not think
it would be so long before
I could answer it satisfactorily
to my self as yet, You asked
if I was a person of my word?
People who know me best do
think. When I wrote if I
made any promises I must
have put in provisos for
I am very careful about making
promises. My will to do is hindered
by financial inability. What
I have is obtained by taking
washing as I am no longer

young it is no easy task. My husband is a soldier out of health & as yet without a pension & as we are trying to pay for a small home must economise. I am taking the Ensign Ocean with the Farmer but my neighbor who is a poor man does not take any so thought I could help him by having the Ensign Ocean sent to him & the Basis to my self & he can have it to read, I have never read the Basis but three times but twice there were two copies. Hoping the cause for which you labor will win & will close

Respectfully
Mrs W E Dearth
