Bro Tourgee.

You have put the Green back issue right, and make it the safe thing to do.

The Red man - may thank you for timely notes, in his behalf, but McKinley - while in the hands of the Bosses, is blind to be of the people, and will wind. If he could possibly go ahead for the right statesmanship, when the opportunity comes - we might look for American progress. The utter smashing up of all political rings - and self seekers - by down right "honest citizenship, is the wave which will clean this country.

yours truly H. J. Ford
