My dear Mrs. Tangee

Will you please tell Mr. Tangee I dont know how to thank him for the excellent work done on The Story of a Thousand? Mr. Gibson has taken nine copies so you can see he also is well pleased. Yet he couldnt think of anything worth telling & never would have tried to gather up the scattered threads from which the story is woven. I thought of writing when the book was first received three weeks ago but was so interested I soon finished it and have only one opinion. It is the best regimental history I

have ever read, and I've read a great many, and the whole work can be taken as a model. You remember I, like yourself, lived through the war and can appreciate the labors of the historian.

I also wish to thank your artist daughter for the fine work she has done, and hope to meet her some time when I may be able to partly repay her for the pleasure she has given me.

With best wishes for yourself and family

Truly yours

G. E. Gibson.
