Detroit, March 15. 1897

Wm. A. W. Jougee
Dear Sir.

A few days since Mr. Ethan Allen Doty who is writing a Genealogy of the descendents of Edward Doty of the Mayflower, requested me to furnish him for use in this work - a complete record of the descendents of our gr. grandmother "Betty" Doty Winegar - I have tried to comply with his request - but cannot do the matter justice for want of statistics in your particular branch of the tribe -

Will not you please to furnish the family records of Jacob Winegar (your gr. father) and of his descendents for this purpose? I know of no other person on whom I can call for this statistics - I also have another request for a brief biog of Capt. Zach. (who died at Williamsfield) for use in a history of Mass. Legislators

My ancient Aunt, Persis Howland, wid. of Alfred P. Winegar, knew Capt. Zach. She wrote me in '75 that

at the time of his death- the Capt. was engaged in investigating the history of Ulric (the immigrant) in Europe- and that he claimed to have discovered much of it- Did you ever hear of his having done such work?- If so- what had he accomplished?

Mrs. Bishop Newman has made some investigations in Germany and Switzerland with very interesting results- She has not secured any actual lineal descent on that side- but has certainly got close to it. She has found the family names and this dates back over 300 years, in Switzerland- She found the precise names of human ancestors on tombstones in a Swiss Cemetery- and the graves cared for with beautiful flowers, when she was there-

If you can help to perfect the record of "Betty's" family- and will do so soon- it will be an addition to Mr. Doty's record of the "40th Signer of the Mayflower Compact"

Yours Truly

J. R. Chase

P.S. I am putting my Lineage Genealogy in form for printing.
