

U.S. POST OFFICE
TRENTON, N.J.

Contin'd.

April 22, 1837

Dear Judge

As to Dr. Martin's day & matter, we
are really sick to get someone of note, and
who is not from our vicinity to obtain the ad-
dress on that day. So far as I know, the Post has
never paid anything except Haines. And I
furthermore will be a "kick", the offer of which
will be free by the Committee, while I have always
been active in Dr. Martin's day work, yet it does not
follow to my, but to both other speakers as this year.
Being this of the Cons., & seek about for a speaker, you
were the first to come to my mind, & wanted to
have you for yourself. And in addition it occurs
to me that if you came down, and were invitation
of the Post's Post, it might possibly be of some
help to you. Please let me know by return
mail as to your time. I confess however that

I have little hope of the Post enduring us
in promising remuneration for the room
given above. This much has now come down.
Hoping to have some from you. I remain
Yours very truly

A D Bronson
